

# Local Governance Reform – Type of Government Decision Aide

There are only subtle differences between most of the types of government at the local level in NB. This tool is designed to support decision-making, particularly in instances where decision-makers are unfamiliar with the types of government currently active or available in NB.

Is it important to note that the type of government chosen does not need to be reflected in the legal name of the entity. For example, a town does not have to be named "The Town of \_xxx\_".

# Réforme de la gouvernance locale – Aide décisionnel sur le type de gouvernement

## Loi sur la gouvernance locale
