Completion of the Splash Pad

17 September 2021

ST. GEORGE – On August 20, 2021, the St. George Splash Pad “unofficially” opened to the public. The splash pad, a 21 meter x 14 meter water park with seven sprinkler fixtures, is shaped like a fish in recognition of the community’s connection to fishing industries of Charlotte County.

The concept of a splash pad in St. George originated from the previous Council of St. George under former Mayor Crystal Cook and was first passed in March 2019. Since then the St. George Splash Pad Committee has been busy with fundraising efforts and the town staff have been focused on securing grant applications.
