Financial Institutions

Scotiabank

Celebrations

Canada Day

*Summer
Concert Series*

St. George was founded by Peter Clinch, a United Empire Loyalist who emigrated from the United States in 1784. From the late 1800's to early 1900's the town was the center of the regional granite industry. Our famous red granite can be found in sculpture and architecture throughout town. Today, red granite has been replaced by pink salmon as St. George is now the epicenter of the salmon aquaculture industry in New Brunswick.
