

**THE TOWN OF ST. GEORGE  
REGULAR MEETING OF COUNCIL**

**1) CALL MEETING TO ORDER:**

The regular monthly meeting of the St. George Town Council held on Monday, September 13, 2021, at Magaguadavic Place, was called to order by Mayor Detorakis at 7:01 pm. Mayor Detorakis, Deputy Mayor Rayner, Councillor Allison, Councillor Armstrong, Councillor Detorakis, Councillor Rubin in attendance; Councillor Coulton absent. Staff attendance: Jason Gaudet CAO/Clerk and Chris MacKinnon Administrative Assistant. Public attendance: Alex Henderson (Planning Director, SNBSC); Marlo Glass (Reporter, Telegraph-Journal); David Armstrong, Rod Krolouski, and public gallery of 12 signed-in persons.

**2) OPENING PRAYER:**

The opening prayer was offered by Brad Crick, Pastor, Family Worship Center.

**3) AGENDA:**

- Moved by Councillor Allison to approve the Agenda, seconded by Councillor Armstrong. Motion Carried.

**4) APPROVAL OF MINUTES:**

- Councillor Rubin moved to approve the Minutes of August 9, 2021, Regular Meeting of Council, seconded by Councillor Armstrong. No discussion, **Motion carried**.
- Deputy Mayor Rayner moved to approve the Minutes of August 18, 2021, Special Meeting of Council, seconded by Councillor Detorakis. No discussion, **Motion carried**.
- Councillor Allison moved to approve the Minutes of August 30, 2021, Closed Meeting of Council, seconded by Councillor Armstrong. No discussion, **Motion carried**.
- Councillor Allison moved to approve the Minutes of September 7, 2021, Public Hearing, seconded by Deputy Mayor Rayner. No discussion, **Motion carried**.

**5) CONFLICT OF INTEREST DECLARATIONS:**

- None

**6) PRESENTATIONS AND DELEGATIONS:**

- a. David Armstrong - re: Speeding on Riverview Avenue.
  - (A presentation/report was provided by Mr. Armstrong to Council prior to the meeting.)
  - Mr. Armstrong expressed thanks for the time to share about his important issue for all of the residents of St. George.
    - Speeding cars put pedestrians, drivers and cyclists at risk.

- Has been an ongoing problem he has been discussing for years. May not have been addressed because Council does not have the data. Took it upon himself to track data on Riverview Avenue over a period of 16 days. Data showed there were 11,100 speeders traveling above 61 km/h, and no tickets were issued (confirmed by RCMP).
- Enforcement, not just awareness, is needed. Speed signs may help with distracted drivers. When there is no enforcement drivers will do what they like. Tickets need to be issued to send a clear message.
- Suggested the Town can hire a part-time peace officer. The motor vehicle act says a peace officer can enforce the criminal code and pieces of provincial legislation. Suggests to hire them for 1 to 2 days a week to issue fines and warnings, and guarantees this can improve the speeding situation by 25%-75%.
- We don't want our Town to be found negligent in providing safe streets for our residents.
- **Mayor Detorakis** expressed thanks for the presentation and commented on the quality of the presentation. Turned to CAO to express what the Town has already done on this issue.
- CAO stated we have installed the radar tractor trailer which passes on data directly to the RCMP. Commandant from RCMP met with Council and staff recently, and the question came up about municipalities hiring peace officers. Can send the presentation to the RCMP and ask them the same questions about speeding tickets. Does not believe we are allowed to request a quota on speeding tickets. Some other municipalities have hired services, but they are more or less security guard services without authority to pull someone over. Outside of the RCMP or a police service, is not aware of another muni hiring a public safety individual. We could ask the Department of Public Safety if they are willing to allow the Town to hire one of their officers.
- **Deputy Mayor Rayner** spoke with the Assistant commissioner today. He advised the Town could hire a peace/conservation officer with the authority to issue tickets, but would have to be with the permission of the department of public safety. He will see what he can do to highlight the fact that St. George would like to see more done about speeding.
- **Councillor Armstrong** commented one of her campaign issues was to slow traffic down. It is not just Riverview Avenue, but the Hillcrest subdivision, Campbell Hill, Mt. Pleasant, Main Street, Clark Street, and more. These facts are shocking. Our role as Councillor is to serve the interest of the community.

*Moved by **Councillor Armstrong** to setup an ad hoc committee with the mandate to search out and develop a plan that is sustainable and within the parameters of the law, to slow the traffic down, which may include multiple opportunities such as pilot projects, infrastructure grants, equipment grants, wage subsidies, and extend the invitation to David Armstrong as the spearhead for this ad hoc committee under the Public Safety committee, and to bring back to Council in an agreed upon timeline to review action, seconded by **Deputy Mayor Rayner**. Motion carried.*

- b. Granite Town Gardening Club, represented by Rod Krolouski
- Rod Krolouski presented on behalf of the Club:
    - They are a non-profit club, used to meet in this place and moved over to the high school. Would like to know if they can come back to meet here, once a month for approximately 8 months during the year. Starting when COVID is over, probably in January. Approximately 25 members and people come and show various items. Was unsure why they left originally.

- **Mayor Detorakis** commented Council welcomed the presentation, and are in the process of making this community center more available to community groups. The Mayor has spoken with the CAO about this issue.

*Moved by **Councillor Detorakis** to allow the Granite Town Gardening Club to use the Magaguadavic Place Community Center once a month as they did in the past, seconded by **Councillor Allison**. Motion carried.*

## 7) GENERAL REPORTS:

### a. **General Government:**

- The CAO presented the report for the month of August.
  - The new well (Well# 6) has been commissioned and is now online.
  - Due to the water tower issues of this summer, we have installed an onsite dialer as a contingency for water tower issues. If there is an outage this will alert Town staff if the water tower goes offline.
  - Lower Bridge Sewage Line Insulation Work - We continue to work on finalizing quotations on this project. We have communication lines open with the Department of Transportation on any requirements from their end, and what is required from a provincial perspective. In the past have done things such as a load test. We will contact them with final details.
  - Canal Beach is scheduled to close next week and we are expecting to commence construction of the rebuild project at that time.
  - Coastal Link Trail: Due to the time in which the permitting and AIA report will take to be prepared, the project will unfortunately not be constructed in the 2021 season. Pending the AIA results, the project will be tendered over the winter months (February/March), with a construction start in May 2022.
  - Splash Pad “unofficially” opened on August 20. Landscaping has since be completed. The splash pad will close on September 20 and go through a winterizing process. The “official” opening ceremony to take place in June 2022. A news release will come out later this month as well.
  - Road Work: 1) The section in front of Dennis Hall on Main Street is expected to be completed over the next few weeks. Have been waiting for milling in that area. 2) There are also a number of patch area schedule to be fixed.
  - As part of a promotion from Stinson Ltd., we will be installing a free trial speed radar sign on Riverview Avenue over the coming weeks (as soon as device is received).
  - The Province (Dept of Local Government) have released their “What We Heard” document on Local Government Reform which is available on GNB.ca. The Department will host a community roundtable discussion at the Lion's Club in Pennfield on September 22 at 6 pm. Space is limited.
  - Residents can now pay water and sewer bills through Service New Brunswick Online.
  - With school back in session, the RCMP is reminding motorists that fines for speeding in a school zone or failing to stop for a school bus range from \$340 to more than \$1,200.
  - Resident's Complaints: ATVs on Public Streets & Walking Trails. A reminder that ATVs are not permitted on streets in St. George.
  - Last week the Town Hall experienced blockage of the floor draining in the town hall; hydro-vac and work from Hannan's Pumping to resolve the issue.

- The Town is looking at establishing a COVID-19 testing/vaccination policy for staff similar to the City of Saint John. Will be brought to Council upon completion.
- NB Power will be holding an EMO Open house on Thursday, September 16 at 6pm, at 1 Magaguadavic Drive in the Industrial Park.
- **Deputy Mayor Rayner** asked for a final figure for the splash pad. CAO advised he did not have that information with him but would get it.

**b. Fire Report – St. George Fire Department**

- Fire Chief Morton presented the report for the month of August (attached).
  - Dispatch through St Stephen will end by the end of the year. LSDs have already made the switch. Will follow up with Jason about that process.
- **Councillor Rubin** asked about maintaining standby with the dispatch change. Chief Morton advised yes, for the near future they will be maintaining both systems. TMR is for dispatching and inter-agency communications (such as ambulance), with possible exception of RCMP due to encryption. The number of incidents when you would need that are minuscule compared to the need for everyday communications for the rest of what happens.
- **Mayor Detorakis** asked regarding the cooperation of fire departments, Is there any kind of agreement between the different towns to coordinate fireworks protection? Chief Morton replied the fire departments don't determine the dates; that is Councils and their committees. As far as cooperation, there is a limited group of people available, having licenses and training and even to setup. And they are time consuming. Here in St. George it is a two-day event. There is cooperation, but it is not written, no.

**c. Building and Planning Report – Southwest New Brunswick Service Commission (SNBSC):**

- Alex Henderson (Planning Director, SNBSC) presented the report for the month of August.
- **Mayor Detorakis** asked, JD: Out of the \$16 million (in permits), how many are residential versus commercial? Mr. Henderson replied they are mostly dealing with residential development. In terms of commercial, it is not very significant. The two biggest were actually industrial permits.

**d. Water & Sewerage:**

- The CAO read the report as written by Leonard Lee, Works Foreman, for the month of August (attached).
- **Councillor Armstrong** referenced previous discussion for "a reasonable amount of time" for getting road work completed. Addressing water breaks on July 28 and August 13, the first break roadwork was not repaired in 40 days, and the second in 30 days. She asked why it takes so long, are we able to do the work ourselves or do we need to contract it out to keep the residents from risk, adding the danger for drivers at the Riverview Avenue location. CAO advised he could not answer that question. Discussion by members regarding a policy or bylaw, the current process at work, and asking advice of appropriate committees.

*Moved by **Councillor Rubin** to take to committee and advise Council with recommendations, seconded by **Deputy Mayor Rayner**. Motion carried.*

**e. Transportation:**

- The CAO read the report as written by Leonard Lee, Works Foreman, for the month of August (attached).
- **Deputy Mayor Rayner** asked what happened at eagles nest and did we find out who did it? CAO advised a bannister was kicked out, and no on who.
- **Councillor Armstrong** referenced minutes of June 14, 2021, conversation about a Main Street camera and a bridge camera. What is the status? CAO replied the Town received information from Telus which was an exorbitant amount of money and required a WIFI zone, which do not have. We are looking at setting up a line of sight WIFI zone to move forward.
- **Councillor Armstrong** asked if the police were contacted about the vandalism, and if a report was filed. CAO answer they were notified, but not sure about the report filed.
- **Mayor Detorakis** commented on the work done to reinforce the bleachers (Day Adventure Center), and acknowledged contributions from JDI for new pressure treated lumber for the wood of bleachers, and Keith's Building Supplies for paint.

**8) BILLS PAID AND PAYABLE:**

*Moved by **Deputy Mayor Rayner** to approve in principal the bills paid and payable in principal to July 31, 2021 in the amount of **\$ 175,243.83**, seconded by **Councillor Allison**.*

- Questions:
  - **Councillor Rubin**, regarding cheque #46022, \$258.58. CAO advised the crosswalks on the upper bridge had some cables ripped out. The hotel sign was repaired due to a light we took out with other repairs.
  - **Deputy Mayor Rayner** asked regarding the archaeology for the well, what were they looking for? CAO replied it is for any signs of previous settlements.
  - **Councillor Armstrong** asked if the heat tape on year round (lower bridge). CAO advised no, it is off in the summer, the billing continues and is paid for each month.
  - **Councillor Rubin** asked if it is the same for natural gas. CAO answered yes.
  - **Councillor Allison**, regarding cheque #46054, what flower planters did they purchase? CAO did not recall. **Councillor Detorakis** advised the flowers were purchased to put in planters on Brunswick Street and others around town. CAO confirmed there were places around town with planters.
  - **Councillor Armstrong** asked if the Town rented a bucket truck. CAO confirmed yes.
  - **Councillor Allison** asked if the Town is going to put the cleaning for the medical center out to tender. CAO advised the mall decides who does that. **Councillor Armstrong** asked if the cleaning is over and above the rental. CAO answered yes.
- **Motion Carried**

**9) NEW BUSINESS:**

- a. Resolution of Council (Motion to) third and final reading, by title only, of By-Law #25-8-21-02, amending the Zoning By-law for the Town of St. George by repealing the Zoning Map for the municipality, Schedule "A", and replacing with Zoning Map Schedule "A-1".
  - **Councillor Allison** expressed concern at the process. She wants Council to meet with Ross and Karen Corning, who were upset and we need to hear how they feel. Asked if this type of motion can be tabled.

- Alex Henderson (SNBSC) advised Council is absolutely allowed to table that kind of motion. Council only needs to make a decision on the bylaw within six (6) months of the public hearing. Discussion between Council and Mr. Henderson about the best method of making adjustments to the bylaw.

*Moved by **Councillor Allison** to table the bylaw until after Council can have more discussion with the concerned parties, seconded by **Councillor Armstrong**. Motion carried.*

**b. Update on Well # 2 Project.**

- CAO advised that in the Special Meeting on August 18, the preliminary budget for this project was \$58K. We are looking at a difference in excess of \$22K, bringing the total to just about \$80K. Looking for Council, if we are continuing the project, to allocate the remainder of the Gas Tax Fund top-up to the water and sewage capital fund to be used for this project.
- **Councillor Rubin** asked, is the Town is still going to be able to do the lower bridge project? CAO advised, yes.

*Moved by **Councillor Rubin** to allocate \$22,537 from the 2021 Gas Tax Fund top-up to the water and sewer capital fund for the Well #2 upgrade, seconded by **Councillor Allison**. Motion carried.*

**c. Declaration of Surplus Properties & Assets.**

- CAO advised the Town is looking to Council for authorization to put out to tender 2014 Ford F-150 pickup truck, 5 liter engine, 4x4, 8 foot box, with roughly 188,000 km. Estimated value is \$7,000. Would put out for tendering for a max bid, with the vehicle going to the highest bidder.
- **Councillor Rubin** asked if the truck could be taken out of service as soon as possible. CAO replied it remains an asset of ours, but will take it out when tender is put out.

*Moved by **Councillor Rubin** to declare the 2014 Ford F-150 pickup truck as surplus and offer for tender, seconded by **Councillor Allison**. Motion carried.*

**10) OLD BUSINESS:**

- a. None

**11) CORRESPONDENCE:**

- a. None.

**12) PUBLIC PRESENTATIONS**

- a. None.

**13) STATEMENTS OF MEMBERS OF COUNCIL:**

- a. **Councillor Allison** presented a report for the Summer Concert Series (attached).
- b. **Councillor Rubin** shared thanks to David Armstrong for his presentation. The data has proved there is an issue in several areas in Town. Also met with the commander of J Division. Will be in

the new committee to voice his concerns, and there are several things that need to be addressed.

- c. **Councillor Detorakis** shared one of her mandates in running for Council was to strengthen student involvement in volunteering. It can help academic performance and develop the community as a whole. There was one volunteer, Olivia Kooiman, a Grade 8 student at Fundy Middle and High School. If she is a representative of the younger generation we have a bright future ahead. We as Council need to figure out how to get the youth more involved in the Town. At the Anglican Church is a group called Community Builders. Anyone interested is welcome to attend their meetings.
- d. **Councillor Armstrong** thanked all for coming out and to her husband (David Armstrong) for the time he spent on the information and presentation regarding speeding. She is willing to join the committee if allowed.
- e. **Mayor Detorakis** stated COVID has changed a lot of things this summer in regards to festivities, but feels very good we all came together as Council, and volunteers from the Council. Feels good that for the first time this year we were able to put on shows in both indoor and outdoor venues, and cultural events we have not had before.

He considers St. Andrews scheduling similar events as the greatest compliment. Council should be looking to strengthen the ranks of volunteers. He is pleased the Town gave a cheque in appreciation of the volunteer service during festival.

Wanted to publicly acknowledge the donation of Dr. Melanie Eagan of land on Portage Street to build a library and other functions including housing. There have been some follow up and due diligence because the offer is conditional on the Town to acquire a parcel of land owned by Irving Oil. CAO established the land is clear of any environmental concerns. Believe we should be able to find the right person in Irving Oil and see where they stand in fulfilling the condition of letting us acquire the land.

#### 14) NEXT MEETING:

- a. Date of Next Regular Meeting: (due to Thanksgiving Holiday) Tuesday, October 12, 2021 at 7:00 pm at Magaguadavic Place (or via Zoom Video Conference).

#### 15) ADJOURNMENT:

- a. Motion to adjourn by **Councillor Rubin**. Meeting adjourned at 8:42 pm.

  
\_\_\_\_\_  
**John Detorakis, Mayor**  
\_\_\_\_\_  
**Jason N. Gaudet, Clerk/CAO**

Report to Council

Fire Department

September 13, 2021

### **Response**

For the month of August, we responded to five incidents. None of the incidents were inside town, and five of the incidents were outside of town. The breakdown of these calls is as follows:

MVA                      3

Structure Fire      1

ANB Assist            1

### **Training**

I am working on accessing training for our portable gas meter. I believe I have found a viable option.

TMR radio system needs to occur. Steps should be taken to sign a contract with Saint John Police Department PSAP for regional fire dispatch, which will initiate this training.

### **Equipment**

Two attack line nozzles were purchased and a repair kit for an existing nozzle is on back order. These new nozzles will replace two that are likely in excess of twenty years old.

I am still awaiting quotes for the portable radios and pagers we are planning to purchase for 2021. I will follow up with the suppliers.

I will be pricing helmets, gloves, and hoods soon. These are items that either wear out or time out. Helmets have a ten year shelf life, regardless of condition. We replace several each year. We typically keep a small inventory of these items, as well as parts for helmets, such as shields which get broken at times. In addition, some hand tools such as axes will be sourced.

A request was made for a laptop computer to replace the eight year old one I am currently using and is failing. It has been ordered.

### **Events**

Firefighters attended several events in August. Firefighters assisted SAFD and ECRFS with fireworks shows, escorted the Little Peoples Parade, sent Unit 453 to the Fog Fest parade and attended the Hometown Heroes Ceremony. At the Hometown Heroes Ceremony Capt. Scott Dougan received his 15 Year Service Pin from the Province of NB, Ralph Eldridge was awarded the Governor General Medal for twenty years of service as well as the David B. Boyd Medal for twenty years of service with SGFD, Joe and Paul Berdan were both awarded their Governor General Bar for thirty years of service, and Chaplain

Marion Jamer (SSFD) was awarded a Hometown Hero Award for her work with all Charlotte County Fire Departments, CCGSAR and ANB, in addition to her work provincially with the RCMP, and as the National President of her association, not to mention all of the people that are often impacted at incidents of all types. In addition, Deputy Mayor Barb Rayner, pharmacist Keith Hoyt and Constable Charles Gagne received Hometown Heroes awards for their contributions to our community.

Sincerely,

Fire Chief Sean Morton

## **SOUTHWEST NEW BRUNSWICK SERVICE COMMISSION (SNBSC) PLANNING & DEVELOPMENT REPORT**

### *Planning update*

- SNBSC participated in a Council public hearing of objections on By-law 25-B-21-02, a By-law to repeal and replace the zoning map for the Town of St. George;
- Council may now proceed to third and final reading of By-law 25-B-21-02;
- If further changes are made by Council to By-law 25-B-21-02, then any changed version of the By-law needs to be re-sent for technical considerations from the PRAC per section 110(1)(b) of the Act;
- The background research for the new St. George municipal plan continues;
- SNBSC met with Town CAO to discuss municipal considerations around a proposed one-lot residential subdivision off of Main Street.

### *Development update*

- Seventeen (17) building permits issued so far in 2021 – value: \$14,343,000.00;
- Twenty-two (22) development permits issued so far in 2021 - value: \$1,603,707.00;
- The nearly \$16 million in new construction value to-date represents very significant development and high-levels of investment in St. George;
- Two (2) fascia sign permits (unchanged) to date in 2021;
- Two (2) subdivision approved to date in 2021.

Respectfully submitted by,

Alex Henderson, Planning Director, M.C.P., MCIP, RPP (NB)

Town of St. George

# Water and Wastewater Report

Report Period: AUGUST 2021

Prepared By: Leonard Lee, Foreman

Average daily water consumption for August was 1563m<sup>3</sup> for a total of 48,470m<sup>3</sup>. There was no total coliform or e-coli reported. Well levels are low, especially # 4.

A routine service box replacement on Brunswick St resulted in two 1" lines being pulled from the main causing a major excavation and a temporary boil order.

A water break occurred on Riverview Avenue in the vicinity of Well # 6 on August 13<sup>th</sup>. It was 75" from the last break. A boil water advisory was issued for this break.

Well # 6 is expected to be commissioned on the 31<sup>st</sup> of August. The approval to operate has been given by the Dept. of Environment. We only need the Dept of Health to sign off on the start-up

We have begun planning and construction on the Well # 2 upgrade and will begin after the new well (#6) is on-line. The existing well inside the building will be filled in and the new well outside will be piped in. Also a standby generator will be installed on the south side of the building and powered by natural gas.

Lagoon results were good for August. Requirements for the residential lagoon (#1) are 25/25 (CBOD/TSS), the industrial lagoon (#2) is 30/30 (CBOD/TSS).

### RESULTS

(All results are in mg/L unless otherwise noted; test methods available upon request)

Sample ID:	Lagoon #1 Influent	Lagoon #1 Effluent	Lagoon #2 Influent	Lagoon #2 Effluent

Town of St. George

# Transportation Report

Report Period: AUGUST 2021

Prepared By: Leonard Lee, Foreman

---

A lot of the month was consumed by work on the Splash Pad which is now finished and operating. This included installation of storm sewer, top soil and sod as well as a gravel driveway into the building. Staff were trained on the basics of the operation and maintenance.

The end of the month we were busy preparing for the Festival including picking up/returning a U-Haul and the music equipment for the music portion.

Railings were repaired on the Eagles Nest and the old tourist bureau after they were vandalized.

The buildings at the Day Adventure Center were cleaned out once again. The businesses on Main Street were trimmed in front of them (weeds) and the railing painted at the post office.

The summer students will be done on the 3<sup>rd</sup> of September so we will have to take over the garbage, watering and mowing then.

A number of issues with the Veterans' Bandstand were repaired before/during the Festival. The stairs and the railing were repaired. Braces were added to the roof uprights to make it stable.

New fencing was installed on the east end of the playground on J.O. Spinney Drive and the section of fencing on the ball diamond that was removed for the previous rink was replaced. Plastic cover was replaced on the top of the ball diamond fence.

The speed trailer was once again deployed on Riverview Ave. and Mt Pleasant Rd. for two weeks each.

A new "for sale" sign was installed on the vacant lot on Brunswick Street and a "NO WAKE" sign was installed north of the Day Adventure Center.

Painting of center lines was done in the second week of the month and we repainted the crosswalks before school opens, as well as the cross hatches and arrows in front of the high school. We also painted catch basin markers before the winter months arrive.

The grad banners were taken down at the first of the month.

The bleachers at the day adventure center are now complete after the new angle iron was welded into place and the planks were installed.

Summer Concert Series—2021

July 22-Aug 12—2021

Magaguadavic Place

To: Mayor and Council

Hear is my report for the Summer Concert Series that was held at 7:00 pm on Thursday Evenings. All proceeds to benefit St. George Area Food Bank.

The Canteen was looked after by the Food Bank and 50/50 and Donation and a Basket was donated by Running out of Time and tons of food was donated.

Donations- July 22-\$133.00, July 29-\$157.00, Aug 5-\$140.00, Aug 12-\$66.00 for a total=\$496.00

50/50---July 22-\$150.00, July 29-\$166.00, Aug 5-\$108.00, Aug 12-\$70.00 for a total=\$494.00

Basket--\$458.00

Total=\$1,448.00

Our cost for the four nights was \$1,700.00—The groups were July 22-Reg Gallant & Allison Inch-\$300.00 and July 29 -Steve Lyons and Anna Marie Burke-\$300.00 and Aug 5- Running out of Time-300.00 and Aug 12- Claudette& Zaida-\$300.00 and Kennon who looked after sound system --\$500.00 for a total =1,700.00 that was our budget for the Summer Concert.

We had about 60-120 people who attend the four night for the summer concert

I would like to Thank Gary Sturgeon for all his in get the groups set up and for Running out of time for donating the basket. Keenon for helping with the sound system and helping with the chairs down and putting away. To Council Coulton for helping at the door and to Mrs. Rubin for helping at the door and for Council Rubin for helping with the chairs away each week. Would like to Thank all the residents who came out and supported the Summer Concert Series. Hope everyone have a great time at the concerts this year and hope to see everyone next year.
